4 metal roll away nest boxes

Haywood 25 with wheels

The Haywood 25

4 hole roll away nest box

Pull out droppings board

Inside the Haywood 25 showing perches and droppings board

Our Haywood 25 is an attractive house and is extremely popular. It has plenty of light with 2 sliding glass windows on each side of the building. It also has 2 adjustable ventilation hatches on the front for extra light and ventilation. Two of the main benefits of the Haywood are that you can stand up in it and it has metal roll away nest boxes to keep the eggs clean. The nests are lined with a plastic tray and the eggs roll forward into collecting trays.

The Haywood is really easy to clean out, with a droppings board below the perches that pulls out of the front of the house. As standard the Haywood is supplied on timber skids, but wheels or metal towing skids are available as an additional extra.

We manufacture the Haywood in larger sizes to house up to 100 chickens, please see page 16 and 17.

**Optional extras** • Wheels • Metal towing skids • 6 hole nest box
