- A 9' or 12' run

Ark A

Ark size C with 9' run

Ark size D with nest boxes and perches

Ark size C with 9' run

Ark size D with 15' run

Our traditional Arks are very popular for ducks and chickens. We make them in 4 sizes to accommodate between 3 – 18 birds, depending on breed and size.

The Arks have a lift off side for easy cleaning, and a solid wooden floor. They are supplied with wooden skids to lift them off the ground slightly. On the front of the Ark there is a drop down pop

hole that folds down to make the ladder. At the top of the ark there is a vent on each side to provide good air flow.

We can supply the Arks with optional nest boxes, perches, wheels and a run if required.
