

Pony Shelters

12' X 18' MOBILE PONY SHELTER

8' x 8' mobile pony shelter with a stable door

10' x 12' pony shelter with the boarding on the outside, kicking boards inside and 2 clear roof sheets

Features

- This field shelter is suitable for ponies, donkeys, alpacas, cattle, sheep and storage.
- The Pony Shelter is 7' at the front and 6' at the rear
- It is framed on the outside and boarded on the inside in order to act like kick boards without the expense
- It can be framed on the inside and have kick boards on the inside if preferred
- The field shelter can be mobile or static depending on your requirements
- The mobile field shelter has a full red oxide painted metal towing frame.
- The openings are 6' on the smaller field shelters and 8' on the two larger sizes

Construction details

- 3" x 2" framing clad in 3/4" tongue and groove boards
- The field shelters are fully treated in new formula creosote
- Roof bearers 3" x 2" framing with black corrugated onduline nailed onto the bearers
- Metal skids – 4" x 4" box with 2" x 2" cross bars

Optional Extras

- Red oxide painted or galvanised metal skids
- Stable door instead of the opening
- Boarding on the outside instead of the inside
- Kicking boards internally
- Partitions to divide the shelter into separate areas
- Clear roof sheets for extra light
