

The Haywood Range

50 or 100 bird houses

THE HAYWOOD 100 SHOWN WITH METAL TOWING SKIDS

Haywood 50 on metal skids

Haywood 50 on metal skids

Haywood 100 on metal skids showing retractable droppings board

Haywood 100 on wooden skids

Haywood 50 internal showing perches and droppings board

Features

- Manufactured in 2 sizes the 50 bird house and the 100 bird house.
- Weld mesh covered windows with sliding glass frame for light and ventilation
- Galvanised metal roll away nest boxes to reduce time spent cleaning eggs
- The nests are lined with a plastic tray; once the eggs are laid they roll forward into the collecting trays at the front away from the birds.
- The nest boxes can be lifted out for cleaning.
- Retractable droppings board underneath the perches for easy cleaning
- Weldmesh covered ventilation hatches to the front which can be set at a desired level.

Construction details

- Planed 2" x 2" framing clad in 1/2" tongue & groove boards
- 3" x 2" floor runners clad in 3/4" tongue & groove boards
- Corrugated onduline sheeting nailed to 2" x 2" roof bearers
- All buildings are fully treated in new formula creosote which deters red mite infestation.
- Wooden skids – 4" x 3"
- Metal skids – 4" x 4" box with 2" x 2" cross bars.

Optional Extras

- Red oxide painted metal skids for mobility.
- Pop holes on the rear of the house instead of the front.
