Needwood 300 internal

Features

- Manufactured in 3 sizes: 100, 200 and 300 bird houses
- Weld mesh covered windows with sliding glass frame for light and ventilation at the front and back of the house
- Galvanised roll-away nest box units each consisting of 18 nests to keep the eggs clean.
- Nest box cupboards on the front of the house, giving access to the wire egg collecting trays.
- Droppings pit underneath the perches to keep the birds away from the droppings. At the rear of the house there are large cleaning shutters to access the pit for cleaning
- 36" Pop holes on the front of the house
- Removable perch benches and hinged perches for easy cleaning
- Metal skids as standard

Construction details

- Planed 2" x 2" framing clad in 1/2" tongue & groove boards
- 3" x 2" floor runners clad in 3/4" tongue & groove boards
- Corrugated onduline sheeting nailed to 3" x 2" roof bearers
- A frames in larger sizes for extra roof support.
- All buildings are fully treated in new formula creosote which deters red mite infestation.
- Metal skids – 4" x 4" box with 2" x 2" cross bars

Optional Extras

- Tama slatted floor instead of the wooden floor, this option also incorporates pop holes at the side of the house under the perches so the birds can be let under the perches to tread the droppings through occasionally.

Optional tama slatted floor
